**Question 6 (20 marks)**

Smart Looks is a fashion design business. The owner, Ms Pumuzile Khumalo, is planning to request a line of credit from her bank. She needs to prepare a cash budget to present to her bank manager.

She has estimated the following sales forecasts:

(E)	
December 2018	220 000
January 2019	90 000
February 2019	180 000
March 2019	180 000

Actual sales for November 2018 are E360 000. Her credit and collection departments anticipate the following collection pattern:

Collections in the month of sale:	10%
Collections 30 days after sale:	75%
Collections 60 days after sale:	15%

Assume equal sales throughout the month.

Purchases of raw materials are made on the first day of each month, and amount to 50% of the following month's forecasted sales. These purchases are paid for 45 days after purchase.

Wages, salaries and other administration costs amount to E27 000 per month. Lease payments for machinery are E9 000 per month. Depreciation on equipment owned totals E36 000 per month. Income tax payments are due in December 2018 and January 2019 to E63 000 each. A progress payment of E180 000 on a new design studio must be paid in December 2018.

Cash on hand on 1<sup>st</sup> December 2018 will be E220 000 (due to brisk festive season), and a minimum cash balance of E90 000 will be maintained throughout the cash budget period.

**Required:**

Prepare a monthly cash budget for the three-month period from December 2018 to February 2019.
